Property Due Diligence Report

[redacted] · Case PDD-2026-0001 · Version 5 · Generated 2026-10-12T11:17:20Z

Scope and limitations. This report is an evidence-based preliminary assessment produced by an automated system from the documents supplied in the case folder. It is not a title search, not an official verification, and not a legal opinion. No statement in it should be read as confirming that title is clear or marketable, that a document is genuine, that the property is free from encumbrances or litigation, or that the property is suitable for purchase. Material conclusions require an independent title investigation and the written opinion of a qualified property lawyer.

1. Executive summary

Documents received	Analysed	Pending	Open requirements	Critical	High	Overall risk
5	5	0	23	0	3	High

Property: [redacted], Sy. No. 123/4B, [redacted], [redacted] · Agricultural Land · Purchase

Purpose: [redacted]

Current status: High-Risk Findings Identified

- 0 critical and 3 high-severity finding(s) are unresolved.

Major findings

Ref	Severity	Finding	Recommended action
R-006	HIGH	Encumbrance Certificate covers about 5 years, not the 30-year review period	Apply for an Encumbrance Certificate covering 01 Oct 1996 to 01 Apr 2019.
R-002	HIGH	Mutation Register Extract (MR) stands in a different name from the title documents	Obtain the mutation record for the transfer and a current extract, and reconcile the names.
R-005	HIGH	A mortgage or charge is indicated and no release document is on record	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.
R-007	MEDIUM	The latest Encumbrance Certificate ends 30 Jun 2024 and is not current	Obtain a fresh Encumbrance Certificate up to the current date, and again immediately before completion.
R-001	MEDIUM	Title chain on record covers about 12 years, short of the 30-year review period	Collect the parent deeds preceding 15 Mar 2015 and continue the chain backwards.
R-003	MEDIUM	Stated extent differs by 5.0% between documents	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.

Recommended next steps

- Apply for an EC (Form 15) covering at least the last 30 years and verify it against the title chain.
- Apply for an Encumbrance Certificate covering 01 Oct 1996 to 01 Apr 2019.
- Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.
- Obtain the mutation record for the transfer and a current extract, and reconcile the names.
- Obtain the MR extract corresponding to each transfer in the title chain.
- Collect each earlier deed referenced in the current title document and continue backwards until the review period is covered.

2. Property details

13_rinabhara_praman_patra_kannada.pdf	Encumbrance Certificate (Form 15 / 16)	02 Jul 2024	Analysed	1/1	100%	—
14_mutation_kannada.pdf	Mutation Register Extract (MR)	22 Sep 2015	Analysed	1/1	100%	—
12_krayapatra_kannada.pdf	Sale Deed	15 Mar 2015	Analysed	1/1	100%	—

4. Individual document analysis

11_pahani_rtc_kannada.pdf — RTC / Pahani (Record of Rights, Tenancy and Crops) (analysed)

A rtc / pahani (record of rights, tenancy and crops) relating to the subject property.

Classified as RTC / Pahani (Record of Rights, Tenancy and Crops), covering Sy. No. 123/4■■, measuring 2.5 acre (10117.1 sq m).

Parties: ■■■ ■■■■ (Owner of record)

Identifiers: Survey number: 123/4■■ (p.1); Subdivision / hissa number: 4■■ (p.1); Village: ■■■■■■■■ (p.1); Taluk: ■■■■■■■ (p.1); District: ■■■■■■■■ ■■■■■■■■■ ■■■■ (p.1); Extent / area: 2.5 acre (10117.1 sq m) (p.1)

Effect: A revenue or municipal record. It evidences possession and the assessee of record for tax purposes; it is not conclusive proof of title.

15_asti_terige_rasidi_kannada.pdf — Property Tax Receipt (analysed)

A property tax receipt relating to the subject property.

Classified as Property Tax Receipt, covering Sy. No. 123/4■■.

Identifiers: Survey number: 123/4■■ (p.1); Village: ■■■■■■■■ (p.1); Taluk: ■■■■■■■ (p.1)

Effect: Evidences payment for the period stated. Payment of tax is not evidence of ownership.

Preliminary automated assessment - not a legal opinion or title search

13_rinabhara_praman_patra_kannada.pdf — Encumbrance Certificate (Form 15 / 16) (analysed)

A encumbrance certificate (form 15 / 16) relating to the subject property.

Classified as Encumbrance Certificate (Form 15 / 16), issued 02 Jul 2024, covering Sy. No. 123/4[redacted], measuring 2.375 acre (9611.28 sq m).

Dates: EC period - from: 01 Apr 2019; EC period - to: 30 Jun 2024

Identifiers: Survey number: 123/4[redacted] (p.1); Village: [redacted] (p.1); Taluk: [redacted] (p.1); Extent / area: 2.375 acre (9611.28 sq m) (p.1)

Effect: Certifies what was registered against the property identifiers used, for the period stated. It does not cover unregistered interests, and an equitable mortgage created by deposit of title deeds may not appear.

Requires verification: The registration entry has not been verified against the Sub-Registrar's record.

14_mutation_kannada.pdf — Mutation Register Extract (MR) (analysed)

A mutation register extract (mr) relating to the subject property.

Classified as Mutation Register Extract (MR), covering Sy. No. 123/4[redacted], measuring 2.5 acre (10117.1 sq m).

Parties: [redacted] (Owner of record); [redacted] (Owner of record)

Identifiers: Survey number: 123/4[redacted] (p.1); Village: [redacted] (p.1); Taluk: [redacted] (p.1); Extent / area: 2.5 acre (10117.1 sq m) (p.1)

Effect: A revenue or municipal record. It evidences possession and the assessee of record for tax purposes; it is not conclusive proof of title.

References: [redacted]-4521/2015 [redacted] 15/03/2015 [redacted]

12_krayapatra_kannada.pdf — Sale Deed (analysed)

A sale deed relating to the subject property.

Classified as Sale Deed, between [redacted] and [redacted], covering Sy. No. 123/4[redacted], measuring 2.375 acre (9611.28 sq m), for a stated consideration of Rs. 45,00,000.

Parties: [redacted] (Seller / transferor); [redacted] (Purchaser / transferee)

Dates: Registration date: 15 Mar 2015

Identifiers: Survey number: 123/4[redacted] (p.1); Village: [redacted] (p.1); Taluk: [redacted] (p.1); District: [redacted] (p.1); Extent / area: 2.375 acre (9611.28 sq m) (p.1)

Effect: On its own terms this document purports to transfer an interest in the property. Whether it was validly executed and registered has not been verified against the official record.

References: [redacted] 1234/1998-99 [redacted]
Requires verification: The registration entry has not been verified against the Sub-Registrar's record.

5. Ownership and title history

#	From	To	Transfer	Date	Document	Registration	Status
1	[redacted]	[redacted]	Sale	15 Mar 2015	12_krayapatra_kannada.pdf	[redacted]-4521/2015	Documented

Each step is *documented* - it reflects what a supplied document states. No step has been independently verified against the Sub-Registrar's record, and matching names across documents is not proof that the same person is involved.

6. Cross-document verification

7. Encumbrance and liability assessment

Certificate	From	To	Nil?	Entries
13_rinabhara_praman_patra_kannada.pdf	01 Apr 2019	30 Jun 2024	No	1

Charge / mortgage indications

- 13_rinabhara_praman_patra_kannada.pdf (p.1) — mortgage indicated
- 12_krayapatra_kannada.pdf (p.1) — mortgage indicated

Open encumbrance findings

Ref	Severity	Finding
R-005	**HIGH**	A mortgage or charge is indicated and no release document is on record
R-006	**HIGH**	Encumbrance Certificate covers about 5 years, not the 30-year review period
R-007	**MEDIUM**	The latest Encumbrance Certificate ends 30 Jun 2024 and is not current

Limitations of the encumbrance evidence

- An Encumbrance Certificate reflects only what was registered against the identifiers used to obtain it, for the period it certifies.
- An equitable mortgage created by deposit of title deeds is frequently not registered and may therefore not appear.
- Unregistered agreements, family arrangements, tenancies and oral claims do not appear.
- No certificate has been verified against the Sub-Registrar's own record.

8. Legal and regulatory review

No litigation reference was found in the supplied documents. This is not evidence that no litigation exists - no court record has been searched.

What was and was not checked

- Completed: Every supplied document was read and compared against the others.
- Completed: References to litigation, acquisition, restrictions and charges inside the supplied documents were identified and listed.
- On supplied documents only: Document classification and field extraction.
- On supplied documents only: Ownership chain reconstruction.
- On supplied documents only: Encumbrance coverage assessment.
- Outstanding: Surveyor's measurement report (Department of Survey, Settlement and Land Records (Tippani, Akarband, Hissa sketch))
- Outstanding: Legal title opinion from a qualified advocate (An advocate practising property law in the relevant jurisdiction)
- Outstanding: Independent litigation and court records search (Jurisdictional civil courts, High Court of Karnataka, e-Courts services, revenue tribunals)
- Outstanding: Online verification of current revenue / khata records (Bhoomi portal (RTC), BBMP / municipal khata portal)
- Outstanding: Verification of deeds against Sub-Registrar records (Jurisdictional Sub-Registrar's office / Kaveri Online Services)

9. Risk register

Critical and high-priority findings

- R-002 HIGH — Mutation Register Extract (MR) stands in a different name from the title documents
- R-005 HIGH — A mortgage or charge is indicated and no release document is on record
- R-006 HIGH — Encumbrance Certificate covers about 5 years, not the 30-year review period

Ref	Finding	Severity	Evidence	Potential impact	Recommended action	Status
R-002	Mutation Register Extract (MR) stands in a different name from the title documents 14_mutation_kannada.pdf records ■■■■■ ■■■■■■■ as the holder, while the title documents show the property vesting in ■■■■ ■■■■. The name similarity is 30%.	**HIGH**	14_mutation_kannada.pdf p.1	The revenue or municipal record may not have been mutated after the registered transfer, or the record may relate to a different person or property.	Obtain the mutation record for the transfer and a current extract, and reconcile the names.	Open
R-005	A mortgage or charge is indicated and no release document is on record 12_krayapatra_kannada.pdf, 13_rinabhara_praman_patra_kannada.pdf indicate that the property was mortgaged or charged. No loan closure certificate, no-dues certificate, release deed or reconveyance has been supplied, so the charge cannot be shown to have been discharged.	**HIGH**	13_rinabhara_praman_patra_kannada.pdf p.1; 12_krayapatra_kannada.pdf p.1	A subsisting mortgage travels with the property. The lender's claim would rank ahead of the buyer's, and the transfer may require the lender's consent.	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Open
R-006	Encumbrance Certificate covers about 5 years, not the 30-year review period The certificate(s) on record cover 01 Apr 2019 to 30 Jun 2024. Registered transactions before 01 Apr 2019 have not been certified. A certificate for a shorter period says nothing about what is registered outside it.	**HIGH**	13_rinabhara_praman_patra_kannada.pdf	A mortgage, attachment or competing transfer registered before the certified period would not appear.	Apply for an Encumbrance Certificate covering 01 Oct 1996 to 01 Apr 2019.	Open
R-001	Title chain on record covers about 12 years, short of the 30-year review period The earliest title document on record is 12_krayapatra_kannada.pdf dated 15 Mar 2015. Title is customarily traced for about 30 years in this jurisdiction; about 12 years are currently documented. The documents preceding 15 Mar 2015 have not been supplied.	**MEDIUM**	12_krayapatra_kannada.pdf	A defect in an earlier, unexamined transfer would not be visible from the documents on record.	Collect the parent deeds preceding 15 Mar 2015 and continue the chain backwards.	Open
R-003	Stated extent differs by 5.0% between documents 12_krayapatra_kannada.pdf, 13_rinabhara_praman_patra_kannada.pdf states an extent of 2.375 acre (9611.28 sq m) (9611.28 sq m) while 11_pahani_rtc_kannada.pdf, 14_mutation_kannada.pdf states 2.5 acre (10117.1 sq m) (10117.1 sq m) - a difference of 5.0% (505.86 sq m). One document records a kharab (uncultivable) area of 5 guntha (505.857 sq m); kharab is sometimes included in and sometimes excluded from the stated extent, which can account for part of the difference.	**MEDIUM**	13_rinabhara_praman_patra_kannada.pdf p.1; 12_krayapatra_kannada.pdf p.1; 11_pahani_rtc_kannada.pdf p.1; 14_mutation_kannada.pdf p.1	The buyer may receive less land than the title document describes, or part of the parcel may lie outside the documented extent.	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Open

Ref	Finding	Severity	Evidence	Potential impact	Recommended action	Status
R-004	Survey number recorded on the case does not appear in any document The case records the survey number as "123/4B", but the documents refer to 123/4■■.	MEDIUM	11_pahani_rtc_kannada.pdf p.1	Either the case details are wrong, or the documents supplied relate to a different property.	Confirm the correct identifier and either correct the case record or obtain the documents for the right property.	Open
R-007	The latest Encumbrance Certificate ends 30 Jun 2024 and is not current The most recent certificate runs only to 30 Jun 2024, about 27 months ago. Registrations since then are not covered.	MEDIUM	13_rinabhara_praman_patra_kannada.pdf	A charge or transfer registered after the certified date would not appear.	Obtain a fresh Encumbrance Certificate up to the current date, and again immediately before completion.	Open
R-008	No external or official record has been checked This assessment is based solely on the documents placed in the case folder. No search has been made of the Sub-Registrar's records, revenue databases, municipal records, court registries, RERA registrations or acquisition notifications. A document that exists but was not supplied cannot be seen, and a supplied copy has not been verified against the official record.	INFORMATIONAL	—	The absence of a finding in this report is not evidence that the underlying issue does not exist.	Commission the external searches listed under pending verification before relying on this assessment.	Open

10. Missing and pending documents

A requirement listed here is something still to be obtained or done. The absence of a document is not itself proof of a defect - it means the point has not been verified.

1. Documents potentially required by applicable law

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Encumbrance Certificate covering the full review period	Mandatory	Shows registered transactions, mortgages and charges recorded against the property for the certified period. Risk: Registered mortgages, attachments or competing transfers may remain undetected.	Jurisdictional Sub-Registrar's office / Kaveri Online Services	Apply for an EC (Form 15) covering at least the last 30 years and verify it against the title chain.	Incomplete
Mutation register extracts (MR) for each transfer	Mandatory	Mutation entries reconcile the registered transfers with the revenue record. Risk: The revenue record may not reflect the registered transfers, leaving the chain unreconciled.	Tahsildar's office / Bhoomi mutation register	Obtain the MR extract corresponding to each transfer in the title chain.	Incomplete
Parent deeds covering the title chain for the customary review period	Mandatory	The title chain is customarily traced for about 30 years to confirm that each transfer was validly made by a person entitled to transfer. Risk: A defect in an earlier transfer can invalidate the present owner's title even if the latest deed appears regular.	The seller, or certified copies from the Sub-Registrar's office	Collect each earlier deed referenced in the current title document and continue backwards until the review period is covered.	Incomplete
Seller identity and authority to transfer	Mandatory	The person executing the transfer must be the person named in the title documents and must be competent to transfer. Risk: Risk of impersonation, transfer by a person without authority, or an undisclosed co-owner.	The seller; verified against title documents and photo identification	Collect photo identification and reconcile the name, parentage and address against the title deed.	Pending Collection

2. Documents conditionally required for this property

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Phodi / subdivision (hissa) record	Conditional	Where a survey number has been subdivided, the phodi record establishes the identity and extent of the subdivided portion. Risk: The portion being transacted may not be officially identifiable on the ground.	Department of Survey, Settlement and Land Records / Tahsildar	Obtain the phodi / hissa durasti record for the subdivided survey number.	Pending Collection
Verification that the land is not granted land restricted under the PTCL Act	Conditional	Land originally granted to members of Scheduled Castes / Scheduled Tribes may carry a statutory bar on alienation. Risk: A transfer in breach of a grant condition can be set aside and the land restored to the original grantee.	Assistant Commissioner / Deputy Commissioner; the original grant order and RTC remarks column	Examine the earliest grant records and RTC remarks, and obtain confirmation that no PTCL proceedings are pending.	Not Performed
Survey sketch / Tippani / Akarband	Recommend ed	Confirms the shape, boundaries and official extent of the survey number on the ground. Risk: Boundary and extent disputes cannot be assessed against official survey records.	Department of Survey, Settlement and Land Records	Apply for the Tippani / Akarband and the hissa sketch for the survey number.	Pending Collection

3. Documents needed to resolve identified discrepancies

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Current RTC / khata extract	Conditional	Required to resolve: Stated extent differs by 5.0% between documents Risk: The buyer may receive less land than the title document describes, or part of the parcel may lie outside the documented extent.	Village Accountant / Tahsildar's office; Bhoomi portal (Revenue Department)	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Pending Collection
Survey sketch / Tippani	Conditional	Required to resolve: Stated extent differs by 5.0% between documents Risk: The buyer may receive less land than the title document describes, or part of the parcel may lie outside the documented extent.	Department of Survey, Settlement and Land Records (Tippani, Akarband, Hissa sketch)	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Pending Collection
Parent deeds predating 15 Mar 2015	Conditional	Required to resolve: Title chain on record covers about 12 years, short of the 30-year review period Risk: A defect in an earlier, unexamined transfer would not be visible from the documents on record.	The seller, or the authority that issued the original record	Collect the parent deeds preceding 15 Mar 2015 and continue the chain backwards.	Pending Collection
Encumbrance Certificate for 1996 to 2019	Mandatory	Required to resolve: Encumbrance Certificate covers about 5 years, not the 30-year review period Risk: A mortgage, attachment or competing transfer registered before the certified period would not appear.	Jurisdictional Sub-Registrar's office / Kaveri Online Services (Department of Stamps and Registration, Karnataka)	Apply for an Encumbrance Certificate covering 01 Oct 1996 to 01 Apr 2019.	Pending Verification
Current Encumbrance Certificate up to today's date	Conditional	Required to resolve: The latest Encumbrance Certificate ends 30 Jun 2024 and is not current Risk: A charge or transfer registered after the certified date would not appear.	Jurisdictional Sub-Registrar's office / Kaveri Online Services (Department of Stamps and Registration, Karnataka)	Obtain a fresh Encumbrance Certificate up to the current date, and again immediately before completion.	Pending Verification

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Loan closure / no-dues certificate	Mandatory	Required to resolve: A mortgage or charge is indicated and no release document is on record Risk: A subsisting mortgage travels with the property. The lender's claim would rank ahead of the buyer's, and the transfer may require the lender's consent.	The lending bank or financial institution that holds the mortgage	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Pending Collection
Registered release of mortgage or reconveyance deed	Mandatory	Required to resolve: A mortgage or charge is indicated and no release document is on record Risk: A subsisting mortgage travels with the property. The lender's claim would rank ahead of the buyer's, and the transfer may require the lender's consent.	The lending bank or financial institution that holds the mortgage	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Pending Collection
Current Encumbrance Certificate showing the discharge	Mandatory	Required to resolve: A mortgage or charge is indicated and no release document is on record Risk: A subsisting mortgage travels with the property. The lender's claim would rank ahead of the buyer's, and the transfer may require the lender's consent.	Jurisdictional Sub-Registrar's office / Kaveri Online Services (Department of Stamps and Registration, Karnataka)	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Pending Verification
Current revenue/khata extract	Mandatory	Required to resolve: Mutation Register Extract (MR) stands in a different name from the title documents Risk: The revenue or municipal record may not have been mutated after the registered transfer, or the record may relate to a different person or property.	BBMP / City Corporation / City Municipal Council / Gram Panchayat, as applicable	Obtain the mutation record for the transfer and a current extract, and reconcile the names.	Pending Collection
Mutation register extract for the latest transfer	Mandatory	Required to resolve: Mutation Register Extract (MR) stands in a different name from the title documents Risk: The revenue or municipal record may not have been mutated after the registered transfer, or the record may relate to a different person or property.	Tahsildar's office (Revenue Department) / Bhoomi mutation register	Obtain the mutation record for the transfer and a current extract, and reconcile the names.	Pending Verification

4. Documents recommended for stronger due diligence

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Physical site inspection and boundary verification	Recommend ed	Documents describe boundaries and extent; only a measurement on site confirms them. Risk: Encroachment, access failure or a shortfall in extent may be discovered only after purchase.	A licensed surveyor; joint inspection with the seller	Arrange a survey against the sketch and confirm possession, access and the absence of encroachment.	Not Performed

5. External verification checks not yet performed

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Surveyor's measurement report	Conditional	Required to resolve: Stated extent differs by 5.0% between documents Risk: The buyer may receive less land than the title document describes, or part of the parcel may lie outside the documented extent.	Department of Survey, Settlement and Land Records (Tippani, Akarband, Hissa sketch)	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Not Performed

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Independent litigation and court records search	Recommended	The supplied documents cannot show proceedings that the seller has not disclosed. Risk: Pending suits, injunctions or attachments may exist without appearing in any supplied document.	Jurisdictional civil courts, High Court of Karnataka, e-Courts services, revenue tribunals	Have an advocate run a search against the property identifiers and every owner in the title chain.	Not Performed
Online verification of current revenue / khata records	Recommended	Revenue records change; the supplied extract may be out of date. Risk: A recent adverse entry, attachment or mutation may not appear in the supplied copy.	Bhoomi portal (RTC), BBMP / municipal khata portal	Pull the live record for the survey number or khata and compare it with the supplied extract.	Not Performed
Verification of deeds against Sub-Registrar records	Recommended	A scanned or photocopied deed is not proof that the registration entry exists in the official record. Risk: Fabricated or altered copies cannot be ruled out from the documents alone.	Jurisdictional Sub-Registrar's office / Kaveri Online Services	Verify each registration number, date and book/volume entry against the official register.	Not Performed

6. Professional assessments still pending

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Legal title opinion from a qualified advocate	Professional Advice	This system organises and cross-checks evidence; it does not give a legal opinion on marketability of title. Risk: No qualified professional has certified that the title is marketable.	An advocate practising property law in the relevant jurisdiction	Place the complete document set and this report before an advocate for a written title opinion.	Not Performed

Jurisdiction caveat. Requirement sets are templates for the selected jurisdiction and have not been confirmed by local counsel. Statutory applicability must be confirmed for this property and this transaction.

11. Questions for the seller or property owner

1. Why does the revenue or municipal record stand in a different name from the title documents? Has the mutation been applied for?
   Why: Mutation Register Extract (MR) stands in a different name from the title documents
2. Is there a registered release of mortgage, or a loan closure / no-dues certificate, for the charge recorded against this property?
   Why: A mortgage or charge is indicated and no release document is on record
3. Can you obtain an Encumbrance Certificate covering the full review period, rather than only 01 Apr 2019 onwards?
   Why: Encumbrance Certificate covers about 5 years, not the 30-year review period
4. Can you provide the deeds preceding 15 Mar 2015, so the title can be traced for the full review period?
   Why: Title chain on record covers about 12 years, short of the 30-year review period
5. Why does the extent stated in the title document differ from the extent in the revenue record?
   Why: Stated extent differs by 5.0% between documents
6. Can you obtain a current Encumbrance Certificate, as the latest one on record ends 30 Jun 2024?
   Why: The latest Encumbrance Certificate ends 30 Jun 2024 and is not current
7. Can you provide encumbrance Certificate covering the full review period?
   Why: Shows registered transactions, mortgages and charges recorded against the property for the certified period.
8. Can you provide mutation register extracts (MR) for each transfer?
   Why: Mutation entries reconcile the registered transfers with the revenue record.
9. Can you provide parent deeds covering the title chain for the customary review period?
   Why: The title chain is customarily traced for about 30 years to confirm that each transfer was validly made by a person entitled to transfer.

10 Can you provide phodi / subdivision (hissa) record?

Why: Where a survey number has been subdivided, the phodi record establishes the identity and extent of the subdivided portion.

11 Can you provide verification that the land is not granted land restricted under the PTCL Act?

Why: Land originally granted to members of Scheduled Castes / Scheduled Tribes may carry a statutory bar on alienation.

12 Can you provide seller identity and authority to transfer?

Why: The person executing the transfer must be the person named in the title documents and must be competent to transfer.

13 Can you provide survey sketch / Tippani / Akarband?

Why: Confirms the shape, boundaries and official extent of the survey number on the ground.

12. Recommended action plan

#	Group	Action	Because	Depends on
1	Immediate	Apply for an Encumbrance Certificate covering 01 Oct 1996 to 01 Apr 2019.	Encumbrance Certificate covers about 5 years, not the 30-year review period	Encumbrance Certificate for 1996 to 2019
2	Immediate	Obtain the mutation record for the transfer and a current extract, and reconcile the names.	Mutation Register Extract (MR) stands in a different name from the title documents	Current revenue/khata extract; Mutation register extract for the latest transfer
3	Immediate	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	A mortgage or charge is indicated and no release document is on record	Loan closure / no-dues certificate; Registered release of mortgage or reconveyance deed; Current Encumbrance Certificate showing the discharge
4	Resolve	Obtain a fresh Encumbrance Certificate up to the current date, and again immediately before completion.	The latest Encumbrance Certificate ends 30 Jun 2024 and is not current	Current Encumbrance Certificate up to today's date
5	Resolve	Collect the parent deeds preceding 15 Mar 2015 and continue the chain backwards.	Title chain on record covers about 12 years, short of the 30-year review period	Parent deeds predating 15 Mar 2015
6	Resolve	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Stated extent differs by 5.0% between documents	Surveyor's measurement report; Current RTC / khata extract; Survey sketch / Tippani
7	Resolve	Confirm the correct identifier and either correct the case record or obtain the documents for the right property.	Survey number recorded on the case does not appear in any document	—
8	Collect documents required by law	Apply for an EC (Form 15) covering at least the last 30 years and verify it against the title chain.	Shows registered transactions, mortgages and charges recorded against the property for the certified period.	—
9	Collect documents required by law	Obtain the MR extract corresponding to each transfer in the title chain.	Mutation entries reconcile the registered transfers with the revenue record.	—
10	Collect documents required by law	Collect each earlier deed referenced in the current title document and continue backwards until the review period is covered.	The title chain is customarily traced for about 30 years to confirm that each transfer was validly made by a person entitled to transfer.	—

#	Group	Action	Because	Depends on
11	Collect documents required by law	Collect photo identification and reconcile the name, parentage and address against the title deed.	The person executing the transfer must be the person named in the title documents and must be competent to transfer.	—
12	Collect documents needed to resolve discrepancies	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Required to resolve: Stated extent differs by 5.0% between documents	—
13	Collect documents needed to resolve discrepancies	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Required to resolve: Stated extent differs by 5.0% between documents	—
14	Collect documents needed to resolve discrepancies	Collect the parent deeds preceding 15 Mar 2015 and continue the chain backwards.	Required to resolve: Title chain on record covers about 12 years, short of the 30-year review period	—
15	Collect documents needed to resolve discrepancies	Apply for an Encumbrance Certificate covering 01 Oct 1996 to 01 Apr 2019.	Required to resolve: Encumbrance Certificate covers about 5 years, not the 30-year review period	—
16	Collect documents needed to resolve discrepancies	Obtain a fresh Encumbrance Certificate up to the current date, and again immediately before completion.	Required to resolve: The latest Encumbrance Certificate ends 30 Jun 2024 and is not current	—
17	Collect documents needed to resolve discrepancies	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Required to resolve: A mortgage or charge is indicated and no release document is on record	—
18	Collect documents needed to resolve discrepancies	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Required to resolve: A mortgage or charge is indicated and no release document is on record	—
19	Collect documents needed to resolve discrepancies	Obtain the loan closure / no-dues certificate and the registered release of mortgage from the lender, and confirm the discharge appears in a current Encumbrance Certificate.	Required to resolve: A mortgage or charge is indicated and no release document is on record	—
20	Collect documents needed to resolve discrepancies	Obtain the mutation record for the transfer and a current extract, and reconcile the names.	Required to resolve: Mutation Register Extract (MR) stands in a different name from the title documents	—
21	Collect documents needed to resolve discrepancies	Obtain the mutation record for the transfer and a current extract, and reconcile the names.	Required to resolve: Mutation Register Extract (MR) stands in a different name from the title documents	—
22	Collect conditionally required documents	Obtain the phodi / hissa durasti record for the subdivided survey number.	Where a survey number has been subdivided, the phodi record establishes the identity and extent of the subdivided portion.	—
23	Collect conditionally required documents	Examine the earliest grant records and RTC remarks, and obtain confirmation that no PTCL proceedings are pending.	Land originally granted to members of Scheduled Castes / Scheduled Tribes may carry a statutory bar on alienation.	—
24	Collect conditionally required documents	Apply for the Tippani / Akarband and the hissa sketch for the survey number.	Confirms the shape, boundaries and official extent of the survey number on the ground.	—
25	Perform external verification	Obtain the survey sketch and a measurement on site by a licensed surveyor, and reconcile the extent against the revenue record.	Required to resolve: Stated extent differs by 5.0% between documents	—
26	Perform external verification	Have an advocate run a search against the property identifiers and every owner in the title chain.	The supplied documents cannot show proceedings that the seller has not disclosed.	—
27	Perform external verification	Pull the live record for the survey number or khata and compare it with the supplied extract.	Revenue records change; the supplied extract may be out of date.	—

#	Group	Action	Because	Depends on
28	Perform external verification	Verify each registration number, date and book/volume entry against the official register.	A scanned or photocopied deed is not proof that the registration entry exists in the official record.	—
29	Recommended for stronger due diligence	Arrange a survey against the sketch and confirm possession, access and the absence of encroachment.	Documents describe boundaries and extent; only a measurement on site confirms them.	—
30	Obtain professional review	Place the complete document set and this report before an advocate for a written title opinion.	This system organises and cross-checks evidence; it does not give a legal opinion on marketability of title.	—

13. Final assessment

High-Risk Findings Identified
Overall risk level: **HIGH** Risk score: 252.65 (84.2/100 indicative)

How this was determined: The overall level is set by the most severe unresolved finding, not by an average. The numerical score (severity x evidence reliability x whether the issue is confirmed and still open) is shown alongside it as a secondary indicator only.

- 0 critical and 3 high-severity finding(s) are unresolved.

Scope and limitations

- This classification reflects only the documents supplied in the case folder. No official record, court registry or external database has been checked, and no legal opinion has been given.
- Only the documents present in the case folder at the time of this version were considered.
- Scanned copies were read as supplied; no copy was compared with an original or with the official register.
- Possession of a document is not evidence of ownership, and a revenue record is not conclusive evidence of title.
- 23 requirement(s) remain outstanding at this version.

Disclaimer. This report is an evidence-based preliminary assessment produced by an automated system from the documents supplied in the case folder. It is not a title search, not an official verification, and not a legal opinion. No statement in it should be read as confirming that title is clear or marketable, that a document is genuine, that the property is free from encumbrances or litigation, or that the property is suitable for purchase. Material conclusions require an independent title investigation and the written opinion of a qualified property lawyer.

Change history for this version

- No Material Change: No material change from the previous version.
