Property Due Diligence Report

hamsa layout · Case PDD-2026-0002 · Version 20 · Generated 2026-10-15T07:03:26Z

Scope and limitations. This report is an evidence-based preliminary assessment produced by an automated system from the documents supplied in the case folder. It is not a title search, not an official verification, and not a legal opinion. No statement in it should be read as confirming that title is clear or marketable, that a document is genuine, that the property is free from encumbrances or litigation, or that the property is suitable for purchase. Material conclusions require an independent title investigation and the written opinion of a qualified property lawyer.

1. Executive summary

Documents received	Analysed	Pending	Open requirements	Critical	High	Overall risk
4	4	0	23	1	2	Critical

Property: hamsa layout · Residential Plot · Purchase

Purpose: Pre-transaction document review and due diligence support.

Current status: High-Risk Findings Identified

- 1 critical and 2 high-severity finding(s) are unresolved.

Major findings

Ref	Severity	Finding	Recommended action
R-015	**CRITICAL**	Reference to injunction in the supplied documents	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.
R-016	**HIGH**	A restriction on transfer is referred to in the documents	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.
R-014	**HIGH**	Reference to pending litigation in the supplied documents	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.
R-010	**MEDIUM**	Conflicting taluk across documents: [redacted], [redacted]	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.
R-021	**MEDIUM**	Conflicting village across documents: [redacted], [redacted]	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.
R-017	**MEDIUM**	Arakere Final Sy.No.96.12.pdf: pages could not be read	Obtain a clearer scan or the original for inspection.

Recommended next steps

- Apply for an EC (Form 15) covering at least the last 30 years and verify it against the title chain.
- Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.
- Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.
- Obtain the khata certificate and extract standing in the seller's name.
- Obtain the MR extract corresponding to each transfer in the title chain.
- Obtain tax-paid receipts for the current and preceding years in the seller's name.

2. Property details

Recorded on the case

Field	Value
property_name	hamsa layout

Consideration	—	Missing	Not stated in any supplied document.
Registration number	21695	Documented	Arakere Final Sy.No.96.12.pdf (p.1)
Registration date	—	Missing	Not stated in any supplied document.

Values marked 'documented' appear in a single document and have not been corroborated. Values marked 'missing' were not found in any supplied document - that is not evidence that the underlying fact does not exist.

3. Document inventory

Preliminary automated assessment - not a legal opinion or title search

File	Type	Date	Status	Pages	Extraction	Issues
Arakere Final Sy.No.96.12.pdf	Approved Layout Plan	—	Analysed	3/4	69% (OCR)	Page(s) 4 yielded little or no text and could not be assessed.
WhatsApp Image 2026-10-14 at 15.42.27.jpeg	Approved Layout Plan	—	Analysed	1/1	98% (OCR)	Read with macOS Vision (built in) because it read this document better than Tesseract.
yellapura site reg.pdf	Sale Deed	—	Analysed	14/14	77% (OCR)	OCR confidence is low on page(s) 3; extracted values need checking against the original.
TMPEC-260601398326.pdf	Encumbrance Certificate (Form 15 / 16)	—	Analysed	3/3	100%	—

4. Individual document analysis

Arakere Final Sy.No.96.12.pdf — Approved Layout Plan (analysed)

A approved layout plan relating to the subject property.

Classified as Unknown Document Type - Manual Review Required.

Identifiers: Survey number: 96/1,2 (p.1); Flat / unit number: 159/■■ (p.3); Extent / area: 8.725 acre (35308.8 sq m) (p.1)

Effect: The document's effect has not been independently assessed.

Requires verification: Values were read by OCR and should be checked against the original.; The registration entry has not been verified against the Sub-Registrar's record.
Issues: Page(s) 4 yielded little or no text and could not be assessed.

WhatsApp Image 2026-10-14 at 15.42.27.jpeg — Approved Layout Plan (analysed)

A approved layout plan relating to the subject property.

Classified as Unknown Document Type - Manual Review Required, measuring 8.A. 29 QTN.

Identifiers: Village: ARAKERE (p.1); Extent / area: 8.A. 29 QTN (p.1)

Effect: The document's effect has not been independently assessed.

Requires verification: Values were read by OCR and should be checked against the original.
Issues: Read with macOS Vision (built in) because it read this document better than Tesseract.

yellapura site reg.pdf — Sale Deed (analysed)

A sale deed relating to the subject property.

Classified as Unknown Document Type - Manual Review Required, covering Sy. No. 19-10.

Identifiers: Village: ■■■■■ (p.12); Taluk: ■■■■■■■■ (p.1); District: ■■■■■■■ (p.12)

Effect: On its own terms this document purports to transfer an interest in the property. Whether it was validly executed and registered has not been verified against the official record.

Requires verification: Values were read by OCR and should be checked against the original.
Issues: OCR confidence is low on page(s) 3; extracted values need checking against the original.

TMPEC-260601398326.pdf — Encumbrance Certificate (Form 15 / 16) (analysed)

A encumbrance certificate (form 15 / 16) relating to the subject property.

Classified as Unknown Document Type - Manual Review Required.

Identifiers: Khata number: 1433/91 (p.1); Village: Arakere (p.1)

Effect: Certifies what was registered against the property identifiers used, for the period stated. It does not cover unregistered interests, and an equitable mortgage created by deposit of title deeds may not appear.

Requires verification: The document type was not established with high confidence.

Preliminary automated assessment - not a legal opinion or title search

5. Ownership and title history

#	From	To	Transfer	Date	Document	Registration	Status
1	—	—	Sale	—	yellapura site reg.pdf	—	Unverified

Each step is *documented* - it reflects what a supplied document states. No step has been independently verified against the Sub-Registrar's record, and matching names across documents is not proof that the same person is involved.

6. Cross-document verification

Field	Consistent?	Values and sources
Survey number	Consistent	96/1,2 — Arakere Final Sy.No.96.12.pdf
Khata number	Consistent	1433/91 — TMPEC-260601398326.pdf
Plot number	Consistent	Not stated in any document.
Flat / unit number	Consistent	159/■■ — Arakere Final Sy.No.96.12.pdf
Village	DIFFERS	■■■■■■ — yellapura site reg.pdf ■■■■■ — yellapura site reg.pdf
Taluk	DIFFERS	■■■■■■■■ — yellapura site reg.pdf ■■■■■■■■ — yellapura site reg.pdf
Extent / area	Consistent	8.725 acre (35308.8 sq m) — Arakere Final Sy.No.96.12.pdf

7. Encumbrance and liability assessment

Certificate	From	To	Nil?	Entries
TMPEC-260601398326.pdf	not stated	not stated	No	—

Open encumbrance findings

Ref	Severity	Finding
R-008	MEDIUM	The period certified by TMPEC-260601398326.pdf could not be determined

Limitations of the encumbrance evidence

- An Encumbrance Certificate reflects only what was registered against the identifiers used to obtain it, for the period it certifies.
- An equitable mortgage created by deposit of title deeds is frequently not registered and may therefore not appear.
- Unregistered agreements, family arrangements, tenancies and oral claims do not appear.
- No certificate has been verified against the Sub-Registrar's own record.

8. Legal and regulatory review

Type	Value	Document	Page
Approval / sanction	■■■■■■■	Arakere Final Sy.No.96.12.pdf	1
Approval / sanction	■■■■■■■/■■■/	Arakere Final Sy.No.96.12.pdf	1

Litigation references found in the documents

- Arakere Final Sy.No.96.12.pdf (p.3) — pending litigation
- yellapura site reg.pdf (p.11) — injunction

A reference in a document is not evidence that a proceeding is currently pending or decided.

What was and was not checked

- Completed: Every supplied document was read and compared against the others.
- Completed: References to litigation, acquisition, restrictions and charges inside the supplied documents were identified and listed.
- On supplied documents only: Document classification and field extraction.
- On supplied documents only: Ownership chain reconstruction.
- On supplied documents only: Encumbrance coverage assessment.
- Outstanding: Site inspection report (The seller, or the authority that issued the original record)

Preliminary automated assessment - not a legal opinion or title search

- Outstanding: Current case status report (Jurisdictional civil courts, High Court of Karnataka (e-Courts / Kaveri), Revenue tribunals)
- Outstanding: Permission or no-objection from the competent authority (The seller, or the authority that issued the original record)
- Outstanding: Legal title opinion from a qualified advocate (An advocate practising property law in the relevant jurisdiction)
- Outstanding: Independent litigation and court records search (Jurisdictional civil courts, High Court of Karnataka, e-Courts services, revenue tribunals)
- Outstanding: Online verification of current revenue / khata records (Bhoomi portal (RTC), BBMP / municipal khata portal)
- Outstanding: Verification of deeds against Sub-Registrar records (Jurisdictional Sub-Registrar's office / Kaveri Online Services)

Preliminary automated assessment - not a legal opinion or title search

9. Risk register

Critical and high-priority findings

- R-015 CRITICAL — Reference to injunction in the supplied documents
- R-014 HIGH — Reference to pending litigation in the supplied documents
- R-016 HIGH — A restriction on transfer is referred to in the documents

Ref	Finding	Severity	Evidence	Potential impact	Recommended action	Status
R-015	Reference to injunction in the supplied documents yellapura site reg.pdf contains language referring to injunction. The supplied documents show that the subject was raised; they do not establish whether any proceeding is currently pending, has been decided, or has been withdrawn.	**CRITICAL**	yellapura site reg.pdf p.11	An injunction or stay order restrains dealings with the property.	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Open
R-014	Reference to pending litigation in the supplied documents Arakere Final Sy.No.96.12.pdf contains language referring to pending litigation. The supplied documents show that the subject was raised; they do not establish whether any proceeding is currently pending, has been decided, or has been withdrawn.	**HIGH**	Arakere Final Sy.No.96.12.pdf p.3	A pending suit can prevent or unwind a transfer.	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Open
R-016	A restriction on transfer is referred to in the documents Arakere Final Sy.No.96.12.pdf contains language indicating that the property may not be transferred freely, or that prior permission is required.	**HIGH**	Arakere Final Sy.No.96.12.pdf p.3	A transfer made in breach of a statutory or contractual restriction can be set aside.	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.	Open
R-002	yellapura site reg.pdf: text recognition confidence is low OCR confidence is low on page(s) 7; extracted values need checking against the original. Parts of this document were not assessed; nothing has been assumed about their contents.	**MEDIUM**	yellapura site reg.pdf	Values read from these pages may be wrong.	Verify the extracted values against the original document.	Resolved
R-003	Arakere Final Sy.No.96.12.pdf could not be analysed (needs manual review) This file is in the case folder but its contents have not been assessed. Nothing in this report accounts for what it may contain.	**MEDIUM**	Arakere Final Sy.No.96.12.pdf	A material fact in an unprocessed document would be missing from this assessment.	Supply a clearer or converted copy (PDF or DOCX), or review the document manually and record the outcome against the case.	Resolved
R-004	WhatsApp Image 2026-10-14 at 15.42.27.jpeg could not be analysed (needs manual review) This file is in the case folder but its contents have not been assessed. Nothing in this report accounts for what it may contain.	**MEDIUM**	WhatsApp Image 2026-10-14 at 15.42.27.jpeg	A material fact in an unprocessed document would be missing from this assessment.	Supply a clearer or converted copy (PDF or DOCX), or review the document manually and record the outcome against the case.	Resolved

10. Missing and pending documents

A requirement listed here is something still to be obtained or done. The absence of a document is not itself proof of a defect - it means the point has not been verified.

1. Documents potentially required by applicable law

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Encumbrance Certificate covering the full review period	Mandatory	Shows registered transactions, mortgages and charges recorded against the property for the certified period. Risk: Registered mortgages, attachments or competing transfers may remain undetected.	Jurisdictional Sub-Registrar's office / Kaveri Online Services	Apply for an EC (Form 15) covering at least the last 30 years and verify it against the title chain.	Incomplete
Khata certificate and khata extract in the seller's name	Mandatory	The khata records the person liable to pay property tax to the local body and is required for transfer and for utilities. Risk: Transfer of khata after purchase may be refused or delayed, and the property's municipal status remains unconfirmed.	BBMP / City Corporation / CMC / Gram Panchayat, as applicable	Obtain the khata certificate and extract standing in the seller's name.	Pending Collection
Mutation register extracts (MR) for each transfer	Mandatory	Mutation entries reconcile the registered transfers with the revenue record. Risk: The revenue record may not reflect the registered transfers, leaving the chain unreconciled.	Tahsildar's office / Bhoomi mutation register	Obtain the MR extract corresponding to each transfer in the title chain.	Pending Collection
Latest property tax / land revenue paid receipts	Mandatory	Confirms the assessee of record and that no tax arrears attach to the property. Risk: Unpaid dues can become a charge on the property and delay mutation after purchase.	BBMP / Municipal body / Gram Panchayat / Village Accountant	Obtain tax-paid receipts for the current and preceding years in the seller's name.	Pending Collection
Seller identity and authority to transfer	Mandatory	The person executing the transfer must be the person named in the title documents and must be competent to transfer. Risk: Risk of impersonation, transfer by a person without authority, or an undisclosed co-owner.	The seller; verified against title documents and photo identification	Collect photo identification and reconcile the name, parentage and address against the title deed.	Pending Collection

2. Documents conditionally required for this property

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Phodi / subdivision (hissa) record	Conditional	Where a survey number has been subdivided, the phodi record establishes the identity and extent of the subdivided portion. Risk: The portion being transacted may not be officially identifiable on the ground.	Department of Survey, Settlement and Land Records / Tahsildar	Obtain the phodi / hissa durasti record for the subdivided survey number.	Pending Collection

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Survey sketch / Tippani / Akarband	Recommended	Confirms the shape, boundaries and official extent of the survey number on the ground. Risk: Boundary and extent disputes cannot be assessed against official survey records.	Department of Survey, Settlement and Land Records	Apply for the Tippani / Akarband and the hissa sketch for the survey number.	Pending Collection

3. Documents needed to resolve identified discrepancies

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Survey sketch / Tippani	Conditional	Required to resolve: Boundary on the north is described differently across documents Risk: If the parcels are not the same, the documents may not describe the property being transacted.	Department of Survey, Settlement and Land Records (Tippani, Akarband, Hissa sketch)	Compare the boundaries against the survey sketch and confirm them on site.	Pending Collection
Legible Encumbrance Certificate stating the certified period	Conditional	Required to resolve: The period certified by TMPEC-260601398326.pdf could not be determined Risk: The certificate cannot be relied on to show the absence of registered charges for any particular period.	Jurisdictional Sub-Registrar's office / Kaveri Online Services (Department of Stamps and Registration, Karnataka)	Obtain a clear copy of the certificate showing the certified period.	Pending Verification
Official record reconciling the taluk	Conditional	Required to resolve: Conflicting taluk across documents: [redacted], [redacted] Risk: The documents may relate to different properties, or one of them may describe the property incorrectly.	The seller, or the authority that issued the original record	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.	Pending Collection
Official record reconciling the village	Conditional	Required to resolve: Conflicting village across documents: [redacted], [redacted] Risk: The documents may relate to different properties, or one of them may describe the property incorrectly.	The seller, or the authority that issued the original record	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.	Pending Collection
Complete, legible copy of yellapura site reg.pdf	Conditional	Required to resolve: yellapura site reg.pdf: text recognition confidence is low Risk: Values read from these pages may be wrong.	The seller, or the authority that issued the original record	Verify the extracted values against the original document.	Pending Collection
Complete, legible copy of Arakere Final Sy.No.96.12.pdf	Conditional	Required to resolve: Arakere Final Sy.No.96.12.pdf: pages could not be read Risk: The unread content may contain material terms.	The seller, or the authority that issued the original record	Obtain a clearer scan or the original for inspection.	Pending Collection
Complete copy of the order / proceedings	Mandatory	Required to resolve: Reference to pending litigation in the supplied documents Risk: A pending suit can prevent or unwind a transfer.	The seller, or the authority that issued the original record	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Pending Collection
Document creating the restriction	Mandatory	Required to resolve: A restriction on transfer is referred to in the documents Risk: A transfer made in breach of a statutory or contractual restriction can be set aside.	The seller, or the authority that issued the original record	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.	Pending Collection

4. Documents recommended for stronger due diligence

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Physical site inspection and boundary verification	Recommended	Documents describe boundaries and extent; only a measurement on site confirms them. Risk: Encroachment, access failure or a shortfall in extent may be discovered only after purchase.	A licensed surveyor; joint inspection with the seller	Arrange a survey against the sketch and confirm possession, access and the absence of encroachment.	Not Performed

5. External verification checks not yet performed

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Site inspection report	Conditional	Required to resolve: Boundary on the north is described differently across documents Risk: If the parcels are not the same, the documents may not describe the property being transacted.	The seller, or the authority that issued the original record	Compare the boundaries against the survey sketch and confirm them on site.	Not Performed
Current case status report	Mandatory	Required to resolve: Reference to pending litigation in the supplied documents Risk: A pending suit can prevent or unwind a transfer.	Jurisdictional civil courts, High Court of Karnataka (e-Courts / Kaveri), Revenue tribunals	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Not Performed
Permission or no-objection from the competent authority	Mandatory	Required to resolve: A restriction on transfer is referred to in the documents Risk: A transfer made in breach of a statutory or contractual restriction can be set aside.	The seller, or the authority that issued the original record	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.	Not Performed
Independent litigation and court records search	Recommended	The supplied documents cannot show proceedings that the seller has not disclosed. Risk: Pending suits, injunctions or attachments may exist without appearing in any supplied document.	Jurisdictional civil courts, High Court of Karnataka, e-Courts services, revenue tribunals	Have an advocate run a search against the property identifiers and every owner in the title chain.	Not Performed
Online verification of current revenue / khata records	Recommended	Revenue records change; the supplied extract may be out of date. Risk: A recent adverse entry, attachment or mutation may not appear in the supplied copy.	Bhoomi portal (RTC), BBMP / municipal khata portal	Pull the live record for the survey number or khata and compare it with the supplied extract.	Not Performed
Verification of deeds against Sub-Registrar records	Recommended	A scanned or photocopied deed is not proof that the registration entry exists in the official record. Risk: Fabricated or altered copies cannot be ruled out from the documents alone.	Jurisdictional Sub-Registrar's office / Kaveri Online Services	Verify each registration number, date and book/volume entry against the official register.	Not Performed

6. Professional assessments still pending

Requirement	Priority	Why / risk if absent	Where to obtain	Next action	Status
Legal title opinion from a qualified advocate	Professional Advice	This system organises and cross-checks evidence; it does not give a legal opinion on marketability of title. Risk: No qualified professional has certified that the title is marketable.	An advocate practising property law in the relevant jurisdiction	Place the complete document set and this report before an advocate for a written title opinion.	Not Performed

Jurisdiction caveat. Requirement sets are templates for the selected jurisdiction and have not been confirmed by local counsel. Statutory applicability must be confirmed for this property and this transaction.

11. Questions for the seller or property owner

1. Are there any pending disputes, claims, notices or court proceedings affecting this property? The documents refer to injunction.
   Why: Reference to injunction in the supplied documents
2. Are there any pending disputes, claims, notices or court proceedings affecting this property? The documents refer to pending litigation.
   Why: Reference to pending litigation in the supplied documents
3. What is the source of the restriction on transfer referred to in the documents, and has the required permission been obtained?
   Why: A restriction on transfer is referred to in the documents
4. Which conflicting taluk across documents is correct for this property, and what record reconciles the different values in the documents?
   Why: Conflicting taluk across documents: [redacted], [redacted]
5. Can you provide a complete and legible copy of Arakere Final Sy.No.96.12.pdf?
   Why: Arakere Final Sy.No.96.12.pdf: pages could not be read
6. Can you provide a complete and legible copy of yellapura site reg.pdf?
   Why: yellapura site reg.pdf: text recognition confidence is low
7. Which conflicting village across documents is correct for this property, and what record reconciles the different values in the documents?
   Why: Conflicting village across documents: [redacted], [redacted]
8. Can you provide a complete and legible copy of WhatsApp Image 2026-10-14 at 15.42.27.jpeg?
   Why: WhatsApp Image 2026-10-14 at 15.42.27.jpeg: note from text extraction
9. Can you provide encumbrance Certificate covering the full review period?
   Why: Shows registered transactions, mortgages and charges recorded against the property for the certified period.
10. Can you provide khata certificate and khata extract in the seller's name?
    Why: The khata records the person liable to pay property tax to the local body and is required for transfer and for utilities.
11. Can you provide mutation register extracts (MR) for each transfer?
    Why: Mutation entries reconcile the registered transfers with the revenue record.
12. Can you provide phodi / subdivision (hissa) record?
    Why: Where a survey number has been subdivided, the phodi record establishes the identity and extent of the subdivided portion.
13. Can you provide latest property tax / land revenue paid receipts?
    Why: Confirms the assessee of record and that no tax arrears attach to the property.
14. Can you provide seller identity and authority to transfer?
    Why: The person executing the transfer must be the person named in the title documents and must be competent to transfer.
15. Can you provide survey sketch / Tippani / Akarband?
    Why: Confirms the shape, boundaries and official extent of the survey number on the ground.

12. Recommended action plan

#	Group	Action	Because	Depends on
1	Immediate	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Reference to injunction in the supplied documents	—
2	Immediate	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.	A restriction on transfer is referred to in the documents	Permission or no-objection from the competent authority; Document creating the restriction

Preliminary automated assessment - not a legal opinion or title search

#	Group	Action	Because	Depends on
3	Immediate	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Reference to pending litigation in the supplied documents	Complete copy of the order / proceedings; Current case status report
4	Resolve	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.	Conflicting taluk across documents: [redacted], [redacted]	Official record reconciling the taluk
5	Resolve	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.	Conflicting village across documents: [redacted], [redacted]	Official record reconciling the village
6	Resolve	Obtain a clearer scan or the original for inspection.	Arakere Final Sy.No.96.12.pdf: pages could not be read	Complete, legible copy of Arakere Final Sy.No.96.12.pdf
7	Resolve	Verify the extracted values against the original document.	yellapura site reg.pdf: text recognition confidence is low	Complete, legible copy of yellapura site reg.pdf
8	Resolve	Obtain a clear copy of the certificate showing the certified period.	The period certified by TMPEC-260601398326.pdf could not be determined	Legible Encumbrance Certificate stating the certified period
9	Resolve	Compare the boundaries against the survey sketch and confirm them on site.	Boundary on the north is described differently across documents	Survey sketch / Tippani; Site inspection report
10	Resolve	Compare the boundaries against the survey sketch and confirm them on site.	Boundary on the south is described differently across documents	—
11	Resolve	Compare the boundaries against the survey sketch and confirm them on site.	Boundary on the west is described differently across documents	—
12	Collect documents required by law	Apply for an EC (Form 15) covering at least the last 30 years and verify it against the title chain.	Shows registered transactions, mortgages and charges recorded against the property for the certified period.	—
13	Collect documents required by law	Obtain the khata certificate and extract standing in the seller's name.	The khata records the person liable to pay property tax to the local body and is required for transfer and for utilities.	—
14	Collect documents required by law	Obtain the MR extract corresponding to each transfer in the title chain.	Mutation entries reconcile the registered transfers with the revenue record.	—
15	Collect documents required by law	Obtain tax-paid receipts for the current and preceding years in the seller's name.	Confirms the assessee of record and that no tax arrears attach to the property.	—
16	Collect documents required by law	Collect photo identification and reconcile the name, parentage and address against the title deed.	The person executing the transfer must be the person named in the title documents and must be competent to transfer.	—
17	Collect documents needed to resolve discrepancies	Compare the boundaries against the survey sketch and confirm them on site.	Required to resolve: Boundary on the north is described differently across documents	—
18	Collect documents needed to resolve discrepancies	Obtain a clear copy of the certificate showing the certified period.	Required to resolve: The period certified by TMPEC-260601398326.pdf could not be determined	—
19	Collect documents needed to resolve discrepancies	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.	Required to resolve: Conflicting taluk across documents: [redacted], [redacted]	—

Preliminary automated assessment - not a legal opinion or title search

#	Group	Action	Because	Depends on
20	Collect documents needed to resolve discrepancies	Obtain a rectification deed, the official record reconciling the identifiers, or confirmation from the issuing authority.	Required to resolve: Conflicting village across documents: ■■■■■■, ■■■■■	—
21	Collect documents needed to resolve discrepancies	Verify the extracted values against the original document.	Required to resolve: yellapura site reg.pdf: text recognition confidence is low	—
22	Collect documents needed to resolve discrepancies	Obtain a clearer scan or the original for inspection.	Required to resolve: Arakere Final Sy.No.96.12.pdf: pages could not be read	—
23	Collect documents needed to resolve discrepancies	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Required to resolve: Reference to pending litigation in the supplied documents	—
24	Collect documents needed to resolve discrepancies	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.	Required to resolve: A restriction on transfer is referred to in the documents	—
25	Collect conditionally required documents	Obtain the phodi / hissa durasti record for the subdivided survey number.	Where a survey number has been subdivided, the phodi record establishes the identity and extent of the subdivided portion.	—
26	Collect conditionally required documents	Apply for the Tippani / Akarband and the hissa sketch for the survey number.	Confirms the shape, boundaries and official extent of the survey number on the ground.	—
27	Perform external verification	Compare the boundaries against the survey sketch and confirm them on site.	Required to resolve: Boundary on the north is described differently across documents	—
28	Perform external verification	Obtain the complete court or authority record for the reference and a current status report, and have an advocate run an independent search.	Required to resolve: Reference to pending litigation in the supplied documents	—
29	Perform external verification	Identify the source of the restriction and obtain either the required permission or confirmation that the restriction has lapsed.	Required to resolve: A restriction on transfer is referred to in the documents	—
30	Perform external verification	Have an advocate run a search against the property identifiers and every owner in the title chain.	The supplied documents cannot show proceedings that the seller has not disclosed.	—
31	Perform external verification	Pull the live record for the survey number or khata and compare it with the supplied extract.	Revenue records change; the supplied extract may be out of date.	—
32	Perform external verification	Verify each registration number, date and book/volume entry against the official register.	A scanned or photocopied deed is not proof that the registration entry exists in the official record.	—
33	Recommended for stronger due diligence	Arrange a survey against the sketch and confirm possession, access and the absence of encroachment.	Documents describe boundaries and extent; only a measurement on site confirms them.	—
34	Obtain professional review	Place the complete document set and this report before an advocate for a written title opinion.	This system organises and cross-checks evidence; it does not give a legal opinion on marketability of title.	—

13. Final assessment

High-Risk Findings Identified
Overall risk level: **CRITICAL** Risk score: 300.41 (100.0/100 indicative)

How this was determined: The overall level is set by the most severe unresolved finding, not by an average. The numerical score (severity x evidence reliability x whether the issue is confirmed and still open) is shown alongside it as a secondary indicator only.

- 1 critical and 2 high-severity finding(s) are unresolved.

Preliminary automated assessment - not a legal opinion or title search

Scope and limitations

- This classification reflects only the documents supplied in the case folder. No official record, court registry or external database has been checked, and no legal opinion has been given.
- Only the documents present in the case folder at the time of this version were considered.
- Scanned copies were read as supplied; no copy was compared with an original or with the official register.
- Possession of a document is not evidence of ownership, and a revenue record is not conclusive evidence of title.
- 23 requirement(s) remain outstanding at this version.

Disclaimer. This report is an evidence-based preliminary assessment produced by an automated system from the documents supplied in the case folder. It is not a title search, not an official verification, and not a legal opinion. No statement in it should be read as confirming that title is clear or marketable, that a document is genuine, that the property is free from encumbrances or litigation, or that the property is suitable for purchase. Material conclusions require an independent title investigation and the written opinion of a qualified property lawyer.

Change history for this version

- No Material Change: No material change from the previous version.
